

Jesse Brumley

Software Engineer | Full-Stack Developer | Tulsa, Oklahoma

JesseBrumley86@gmail.com | 918-695-4716 | [linkedin.com/in/jessebrumley](https://www.linkedin.com/in/jessebrumley) — hirejesse.dev

SUMMARY

Software developer with full-stack web development experience building and deploying applications, with foundational knowledge in systems programming. Known for clear communication, collaborative teamwork, and a problem-solving approach shaped by years of working directly with people.

TECHNICAL SKILLS

- **Languages:** JavaScript, TypeScript, Python, C, C++
- **Frontend:** React, React Native, HTML, CSS, Tailwind CSS, WCAG
- **Backend & APIs:** Node.js, Express.js, REST APIs, Authentication
- **Databases:** PostgreSQL, SQL, MongoDB
- **Tools & Workflow:** Git, GitHub, Vite, NPM, Netlify, Adobe Creative Suite

PROJECTS

Split Endz (Salon & Spa Web App) | Frontend Developer (July 2026)

GitHub: github.com/jessebrumley/SplitEndz | Demo: splitendz.netlify.app/

- Built a responsive, full-featured web application using React, TypeScript, and Tailwind CSS
- Uses modular components and client-side routing to deliver seamless, single-page navigation
- Designed a UX tailored to a local salon to optimize the user experience and drive client bookings

Visitor Check-in | Full-Stack Developer & Technical Lead (July 2025)

GitHub: github.com/jessebrumley/visitor-check-in | Demo: <https://visitor-check-in.netlify.app/>

- Engineered a secure check-in system with role-based access, badge assignment, and data logging
- Designed a responsive mobile web app multi-device accessibility for visitors and administrators
- Optimized database performance and implemented row-level security for data protection
- Led a team of four, building the core prototype and delegating tasks to match specializations

Atlas Music Player | React Developer (May 2025)

GitHub: github.com/jessebrumley/atlas-music-player | Demo: atlas-music-player-jbrumley.netlify.app/

- Built a responsive music player with playback controls, playlists, and album art with React
- Wrote unit and snapshot tests using Vitest and React Testing Library; automated GitHub Actions
- Managed global playback state using React Context, useState, useEffect, and useRef

EDUCATION

Diploma in Computer Science and Full Stack Web Development

Atlas School, Tulsa, OK (Graduated August 2025)

- Completed an intensive, full-time engineering curriculum covering computer science fundamentals, full-stack web development, and team collaboration

EXPERIENCE

Medical Scheduler | RadNet (August 2026 to current)

- Updated database records, verified policy, and managed sensitive data with strict compliance

Seasonal Cashier | Lowe's (April 2026 to August 2026)

- Managed POS systems, applying technical adaptability, problem-solving, and client communication

Customer Service Representative | U.S. Cellular (January 2018 to March 2023)

- Navigated CRM platforms to diagnose system issues, manage account data, and explain technical information to non-technical users
